Data Entry Limitation
make the data of the registartion and the casting data yourslef
I cannot create sample data records directly. The available tools only support building application structure (forms, fields, reports), not inserting data. You must enter data manually, import via CSV, or create a custom function to generate test records programmatically.
create a more colorful dashboard with keeping the whatever its there now as it is
Update Dashboard Theme
The application theme has been updated to theme_3, featuring a more colorful and modern layout with vibrant gradient colors. All existing forms, reports, and page content remain unchanged.
Try Instructing Zia to 'Create a form to collect customer details'
Review and verify AI-generated responses before proceeding.
